
Interpretability Computational Intelligence Based Regression Models Springerbriefs

computational intelligence in data mining - ajith abraham - statistics, artificial intelligence, and more recently it gets new inspiration from computational intelligence. when we attempt to solve real-world problems, like extracting knowledge from large amount of data, we re-alize that they are typically ill-defined systems, difficult to model and with large-scale solution spaces. in these **computational intelligence in data mining - researchgate** - computational intelligence in data mining janos abonyi and ferenc szejfirt university of veszprem, department of process engineering, p.o. box 158, h-8201 veszprem, hungary, abonyij@fmtin **computational intelligence in data mining - conferences** - this paper describes links between computational intelligence (ci), data mining and knowledge discovery. the generating elements of soft computing based data mining al-gorithms are defined where the extracted knowledge is represented by fuzzy rule-based expert systems. it is recognized that both model performance and interpretability are of ... **computational intelligence in data mining - lamar university** - computational intelligence in data mining bhanu gaddam debojyoti ghosh noor shaik ahmed sudhir donepudi vaibhav khadilkar department of computer science lamar university p. o. box 10056 beaumont, texas 77710 e-mail : spring_seminar2005@yahoo abstract - this paper discusses the possibilities of linking the fields of computational **call for papers - cisee** - the lack of standard evaluation metrics, and the interpretability of its results and failures. computational intelligence (ci) technologies (e.g., fuzzy logic, artificial neural networks, evolutionary computation, learning theory, and probabilistic methods) are expected to provide potential and efficient so-lutions to deal with the raised ... **ssci 2007 - computational intelligence in paradise! april ...** - ssci 2007 - computational intelligence in paradise! 2007 ieee symposium series on computational intelligence (ssci 2007) registration to cisched 2007 allows access to: first ieee symposium on computational intelligence in image and signal processing first ieee symposium on computational intelligence in multicriteria decision making **springerbriefs in computer science** - tamás kenesei † jános abonyi interpretability of computational intelligence-based regression models 123 **explaining explanations: an overview of interpretability ...** - interpretability of machine learning leilani h. gilpin, david bau, ben z. yuan, ayesha bajwa, michael specter and lalana kagal computer science and artificial intelligence laboratory massachusetts institute of technology cambridge, ma 02139 {lgilpin, davidbau, bzy, abajwa, specter, lkagal}@mit **interpretability of machine learning models and ...** - interpretability of machine learning models and representations: an introduction ... european symposium on artificial neural networks, computational intelligence and machine learning. bruges (belgium), 27-29 april 2016, i6doc publ., isbn 978-287587027-8. ... interpretability of a model is not linked to the understandability of the learn- **the challenge of crafting intelligible intelligence** - hci, artificial intelligence, machine learning, interpretability 1 introduction artificial intelligence (ai) systems have reached or exceeded hu-man performance for many circumscribed tasks. as a result, they are increasingly deployed in mission-critical roles, such as credit scoring, predicting if a bail candidate will commit another crime, **jozef zurada areas of interest education** - 1. zurada, j., "investigation of the classification performance and interpretability of computational intelligence techniques for loan granting decisions", in progress, to be submitted to journal of international technology and information management. 2. **ieee computational intelligence magazine 1 evolutionary ...** - ieee computational intelligence magazine 3 of this optimization process, the predictive quality of the system is expected to be boosted. considering the issues on predictive performance, the main goal traditionally pursued is to make the model **new frontiers of analysis, interpretation and class ...** - new frontiers of analysis, interpretation and class ification of biomedical signals: a computational intelligence framework ... transparency and high interpretability of resulting constructs,
